

Robust Chromatin Immunoprecipitation

Zymo-Spin™ ChIP Kit

- **Simplified Workflow:** Streamlined protocol for chromatin immunoprecipitation and purification of ChIP DNA.
- **High-Quality:** Ultra-pure, concentrated ChIP DNA can be eluted in as little as 6 µl.
- **NGS-Ready:** ChIP DNA is suitable for ChIP-Seq, ChIP-qPCR, and other sensitive molecular applications.

High-Quality ChIP DNA Recovery

ENCODE Quality ChIP Workflow: Browser tracks depicting H3K4me3 ChIP-Seq assay using the Zymo-Spin™ ChIP Kit. Peaks overlap the same sites identified at the Broad Institute of MIT and Harvard as part of the ENCODE project.

Product	Cat. No.	Size
Zymo-Spin™ ChIP Kit	D5209 D5210	10 preps 25 preps
